

THE FACE OF  
*Roofing, Windows and Siding*

## ROB CALHAN & ARTIE HENDRICKS

When Rob Calhan and Artie Hendricks teamed up in 2015 to start Landmark Roofing they had one goal in mind—provide quality service. For this reason, the entire Landmark Team always strives to do the right thing and ensure that customers are satisfied. Landmark truly cares about their customers, their customers’ families, and their customers’ homes.

Artie, with associate degrees in Architecture and Construction Management, and Rob, with a B.A. in Business, together brought a fresh approach to an old industry. Rather than taking on the established traditions of typical sales and marketing, Artie and Rob forged a unique hybrid approach to their brand that they now bring to local areas. Landmark clients can be found all around Anne Arundel county and beyond.

One factor behind the success of Landmark is their dedication to stay on top of advancements and training in the Roofing industry and to provide products and services that exceed industry standards. This is apparent in the products that they offer. For example, Landmark proudly offers GAF shingles for which they are Master Elite contractors.

Landmark Roofing became the quickest contractor to reach such status in the company’s history. Landmark also proudly offers Simonton windows, for which they are Master Consultants, and was recently selected to offer Private Label Exterior Portfolio siding, who is the leading siding manufacture in the US.

From the beginning, Landmark Roofing has always believed in giving back to the community. Since 2016, Landmark Roofing has offered a ‘Roof Give Away’ to a local family in need. Landmark believes that a community is best served through volunteering, so they offer their time and services to community improvement efforts in local neighborhoods and schools. Among the company’s community improvement efforts, Landmark participates in local grounds clean-ups and worked to restore accessibility to the B&A Bike trail by rebuilding a widely used ramp in the community and sponsors the Severna Park Community Center.
